CMH ACCESS

CMH acute care and urgent care are still operating as per usual, but we request people ring ahead so that we can provide the best advice before presenting for care.

Access to the hospital is through the main reception, which is now only open from 8:30am – 5:00pm Monday to Friday.

At all other times the call bell is required to gain access.

COMMUNITY CAR

The car is still operating for short trips using "distancing rules".

Passengers are required to sit in the back p

MEALS ON WHEELS

Meals on Wheels is continuing with lots of employees taking on the role each day of the volunteers. This service is extremely important during this period of home stays.

If anyone is interested or wanting more details on meals on wheels or self-funded meals, please contact CMH on 5554 2555 during office hours for more information.

FLU VACCINATIONS

Flu vaccinations will be out soon. If you have not had one before, please contact your doctor as this is a good time to get it. Influenza vaccinations, especially in small communities, can really reduce the likelihood of spread, and can be a life saver for those with underlying health concerns i.e. diabetes.

An update for CMH VOLUNTEERS *Thank you!*

A big thankyou to all the volunteers who are on leave during this trying time across the country. Everyone at CMH is missing each and every one of you and we hope that it is not too long until we see you again.

With no community health programmes or Seasons we are improvising with phone calls and updates to all the consumers so that we can offer support and updates on how CMH is travelling.

So stay healthy and stay home as much as possible until further information is released.
